### Instrument List:

- [Yellow](#)

Discussion:

Six of the APUs are not getting data to the trmm-fc server. It is either a problem with the APU computer, host network computer or wireless internet provider. Here is a list of the APUs with these problems:

APU 03, 04, 08, 09, 11, 12

Each of these APUs will be visited today.
